COLLEGE SECURES MAJOR BUILDING GRANTS

New Infrastructure – Building Project

As part of the Federal Governments Stimulus package related to “Building the Education Revolution”, Saint Spyridon College lodged a submission for significant funding for developing a two storey facility behind the Church.

The proposed building would incorporate a new Multipurpose Assembly/Indoor Gym area; Performing Arts area; Library; four new class rooms and a dedicated Computer zone.

On the 10th of June 2009 the College was awarded a grant for $850,000 which will allow this project to commence shortly, with a completion date of the 1st quarter of 2010.

The plans can be viewed at the School near the events board in the Science/Art area.

As you can appreciate this will be a significant project to undertake so we will be providing regular updates on its progress.

This building development is going to exceed a million dollars. For this reason, we will be seeking support and suggestions towards fundraising and sponsorship opportunities to assist with this project.

National Prides – Grants

Saint Spyridon College has also been successful in securing a $75,000 grant as part of the National prides program which provides money towards improving outdoor learning areas via the installation of shading etc.

The grant will be used towards building a shaded outdoor learning area in the main playground area of the College campus.

Please feel free to contact Nick Papageorgiou for further details or if you have any enquiries about any of the items presented in the Newsletter.
